Personal Profile

A UI/UX Designer Who believes design thinking can solve most of the problems. I can design beautiful user interfaces for both mobile and website. I've worked in projects to improve myself and learn from mistakes. I approach each design iteration and thinking as part of a living process. Nothing is rejected, nothing is one-directional. My long-term goal is to make things easy to use and delightful to everyone. When I'm not working, I love to travel
